Advanced Catheterisation Trainer

Part No: 60150

The Advanced Catheterisation Trainer facilitates the teaching of urethral and supra-pubic catheterisation, as well as how to demonstrate self-catheterisation to patients (when using the optional Self Catheterisation Stand). It has interchangeable accurate male and female anatomy, and both sets of genitalia are realistically soft and pliable. The feel of the catheter passing along the urethra into the bladder corresponds closely to real life.

Skills
- Correct handling of male and female anatomy
- Aseptic catheterisation technique
- Catheter placement: accepts catheters from 14-16 French (male) and 12-16 French (female)
- Fluid management
- Withdrawal of catheter
- Intermittent self-catheterisation (ISC) when used with the optional Self-Catheterisation Stand Part No: 60167
- Suprapubic catheter insertion and catheter management when using Suprapubic Bung (supplied)

Features
- Latex free
- Supple urethra and resistant sphincter providing realistic response
- Non-drip valve
- Male anatomy: realistic meatus, flaccid penis and replaceable foreskin
- Female anatomy: partable labia with realistic urethral meatus and vaginal opening
- 1 litre fluid bag on stand provides pressurised fluid flow
- Easily interchangeable Male and Female Catheterisation Units
- Syringe supplied with water-based lubricant to simulate proprietary local anaesthetic gel
- Reusable double-sleeve catheter packaging is supplied for teaching aseptic catheter handling
